history of the rapprochement, revealing it as essential'y a national one with France, without definite obligations.

Finally, on the one tremendously vital question-a question upon the answer to which the British empire and the whole world are hanging-whether the government considers that Germany's policy compels Great Britain to wage war, the foreign secretary left an mpression of doubt.

The interpretation drawn by many is that if Germany will keep her soldiers off Belgian soil and her battle ships away from the coast of France that will be the price of Great Britain's armed neutrality.

CROWDS CHEER KING GEORGE.

The first outbreak of patriotic enthusiasm since Le possibility arose of England becoming involved in the war oc curred in London last night. Crowds of Englishmen and Frenchmen marched through the streets in the west end waving flags and singing the national anthems.

When they reached Buckingham palace, the king, queen, and Princess Mary appeared and bowed acknowledgment of the demonstration. The crowds chanted "We Want King George" to the tune of the "Westminster Chimes," and sang "Rule, Britannia."

(BY A STAFF CORRESPONDENT.) Washington, D. C., Aug. 3 .- [Special.] Officers of the general staff, those in the war college, and members of the general board of the navy today were unanimous in their opinion that THE TRIBunz's military expert yesterday forecast Germany's strategy in the present Euopean war perfectly.

The developments of the last twentyfour hours only serve to strengthen his view that Germany, by a swift move, has seized possession of the Baltic, and while skirmishing along the French border is devoting its entire strength to an assault

Russ Capital Germany's Goal. " Press dispatches today," the expert said tonight, "indicate that Germany now has its main fleet in the Baltic, together with those merchant vessels which were in European ports at the time hostilities became inevitable. They also indicate that Germany is invading Russia. There can be only one goal for that invasion and that goal is St. Petersburg.

"Germany's fleet is far superior to the Russian fleet, which already has retreated into the Gulf of Finland, according to the reports. Today Germany can sweep the entire Baltic coast line of Russia and it has begun to sweep it already, as the reports of the attack on Libau

Kronprinz Wilhelm Sald to Carry Coal to Cruiser Off the Harbor.

FRENCH REQUISITION SHIP

New York, Aug. 3.—Slipping quietly out of port tonight, its superstructure paint-ed gray, with 6,000 tons of coal and no passengers on board, the German liner Kronprins Wilhelm may be carrying fuel to the German cruiser Dresden, said to be not far sutside Sandy Hook. It is known the wireless station at Sayville, Long island, has been working with a Ger war vessel, probably not many miles of

As required by maritime regulations, the Kronprins Wilhelm took out clearance papers, ostensibly for Bremen, and it was intimated in quarters supposed to be well informed, that it would endeavor to make that port by taking a northerly route and passing around the northerly end of Scotland.

Up to the Commander. What it might really do after passing out of the harbor, however, was a ques-tion for the commander to determine after he had read his orders, which, according to interpretation of port officials at the steamship pier, were to be opened after the vessel had passed Sandy Hook. Mystery shrouded the liner's prepara-tions for departure and its actual sailing.

On its forward dack it carried a large box, hig enough to contain a naval gun of considerable power. The vessel was constructed for possible use as a German naval reserve unit in case of emergency and its build is strong enough to stand the strain of firing a gun such as the case Deny Ship Is Fighter.

The German Lloyd officials denied, how-ever, the vessels had been secretly fitted out for fighting purposes. The box on deck was declared to contain an extra crank shaft. The ship was so fully loaded that coal showed above batches and it settled three feet deeper into the water than when ordinarily laded. It can travel at twenty-five knots an hour

When the North German Lloyd line let it be known late today that the vessel was to leave port it was said it would not sail before midnight or late. Four hours before this time, however, the Krenprins left the pier and steamed down th shipping in this port was taken today when the French government requisi-tioned the steamer Rochambeau, which

The New Pierce-Arrow

Unprecedented Changes this Year

The Pierce Arrow has always been a conservative car. It is so to-day. The marked improvements therefore in this new model mean a permanent, fundamental advance.

Most important of these is the lower center of gravity, bringing the car nearer the ground without decreasing road clearance. This has been accomplished by a drop frame and is a feature long desired by motoring owners.

Practically unlimited power gives to the motor an easy capability on hills and alert response under all conditions. Tront seats are individual, separated by a center aisle which permits easy passage from the front to the tonneau. This arrangement brings all

passengers into more intimate communication. ¶ Self starter operates with a single movement, by pressing a button.

No detached accessories but the tires. All equipment is now built into the chassis, is an integral part of the car, designed in harmony with it.

New Pierce Arrow solitaire top, handled by one man. Other improvements make this the most progressive model ever produced by the Pierce Arrow factory. It is now on our floor. Demonstration by appointment.

Explains Action to

Richard L. Crampton, secretary of the Illinois Bankers' association, last night sent out a special communication to all members of the association headed "The Banking Situation Resulting From the European War." In part it read:

As foreign governments will through their bankers, exhaust every possible means of securing American quirements, the only method of cooperation for self-defense against such inroads upon the supply of the banks lies in suspending the payment

of specie.

The situation is not parallel with that of 1907, though the same external methods must be employed to accomplish the necessary results in the absence of any control over our gold reserves, such as many believe may be possible when the federal reserve banks are in full operation. The facts have been fairly covered

n the press and little more can be said at this time. A canvass of the large banks in Chicago shows there is no disturbance whatever, and that every one is viewing the situation calmly and philosophically. Some of the authorities express the belief that an early and easy adjustment to the new conditions will be secured.

THE ELAG TO THE SEA

Now is the time to put the American flag back on the seas. It was driven off in our great war. It may come back in Europe's great war. Congress is prompt in considering legislation which may invite foreign vessels into American register, with such conditions as will prevent it from being used as a subterfuge for war time purposes. Furthermore, it has been suggested that if the war, contrary to present calculations, covers any considerable period there will be offered for sale numerous fine ships of the various belligerents' merchant marine now detained in our ports for fear of capture.

Great Britain will be able to offer her merchant a considerable degree of protection. In combination with France she may keep trade routes open even if, from time to time, a commerce destroyer cuts out unconvoyed vessels. There will be, however, the war risk, and it is a certainty that British and French merchants will do no carrying for neutral

German carriers already encounter such risks that they have remained in neutral ports. Such as sailed before war was declared are hastening into the nearest safe port. For the time at least Germany is off the ocean except for its war marine. The greatest markets of the world are closed to the greatest carriers of the world.

This is the American opportunity to reestablish its merchant marine, not by the futile, faulty method of subsidy, but by meeting an opportunity. The American register invites the carriers. Make it possible by reasonable conditions for them to take the American flag and raise it. Make it possible for American money to take over foreign built ships and make them American ships.

Vessels cannot be built to meet this emergency. but they can be bought and they can be accepted as seekers of place in the American marine. It's our great opportunity. The grains of America will be needed in the markets of Europe and the vessels to carry them are not numerous.

Soon the nations will declare what is contraband and what is not. When the declarations have been made our exporters will know precisely whither and what they may and may not with safety ship. They will need ships, and ships are to be had if the American restrictions as to registry be liberalized. It's our opportunity to put the flag back on the

AMERICA'S STRENGTH.

There is to be no great rail strike. Reason and ublic spirit have prevailed and arbitration is to substituted for the folly and waste of labor war, This means that our vast surplus crops will be moved to the seaboard without hindrance, and congress is now at work devising ways and means to expand our facilities for export. To a considerable extent Europe's need is our opportunity, and if we unitedly act with foresight and good judgment we shall not only save ourselves from serious injury, but profit legitimately by supplying in crops and supplies of goods the great deficiencies created by the paralysis of war abroad.

and mobilize our resources, avoid strikes and disturbances of our business machinery. There is no need for fear. We are free from entangling alliances. Meanwhile the new federal reserve system is in will be in operation. By this new system our financial resources will be effectively mobilized and utilized according to need.

Congress is in session and with the administration availing itself of expert opinion and the financial leaders working vigilantly and harmoniously the United States seems about to give as striking an exhibition of the forces of financial and economic power as Europe is giving of the forces of war and destruction.

In this mighty and beneficent mobilization of the nation's resources we all have responsibility. just as we would have in war a responsibility to keep cheerful, clear headed, cool, confident of our own strength.

The cows at Valmora give 1,000 gallons of milk per month. The hens lay 100 dozen of eggs. Pretty much all food material must be purchased. The cost of land, building, and equipment figures at about \$700 per bed. An equipment for-100 patients could be built for about \$550 per bed. This includes cost of dining hall. kitchens, laundry, bathhouse, restrooms, sleeping quarters, water, and sewage facilities.

A sanitarium caring for fifty patients can be run without loss for \$10 per week per patient. If the cost is greater than that, the money is spent for things that add to the comforts of life, but are not песеввату.

have water or it cannot breed.

To the Citisens of Chicago:
There is real danger that the war in Europe
will divert the attention of the public from
the serious distress among the poor of our own
city. Thousands of women and children right
now have absolutely no means of subsistence
other than that furnished by the relief agencies. Thousands are sick and disabled and in

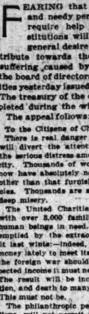

teep misery.

The United Charities is at present dealing deep misery.

The United Charities is at present dealing with over 3,000 families, representing 13,000 human beings in need. Its treasury has been emptied by the extraordinary demands upon it last winter—indeed, it has been borrowing money lately to meet its obligations, and if now the foreign was should out off its current expected income it must necessarily stop its work. The result will be increased misery, starvation, and death to many 60 our fellow citizens. This must not be.

The philanthropic people of Chicago, we believe, will not permit it. We therefore make this direct, earnest appeal to all citizens to rally to the aid of ourpoor and make possible the continued activities of this tried and efficient organization. Money for the sick, the destitute, the unemployed, the helpless widows, the tuberculous sufferers, the innocent babes in arms, is needed at once.

Send checks today to David R. Forgan, treasurer, 168 North Michigan avenue. Your humanity, your patriotism are appealed to. Tou will respond, we are certain—today.

Scores Victory by Taking Three of Four Sets on Onwentsia Court.

HONORS BACK TO CHICAGO

BY IEWETT E. RICKER IR. The biggest thing that has happened in

western lawn tennis since 1902, the year that Kreigh Collins won his last western title, occurred yesterday on the court of the Onwentsia club of Lake Forest when the Onwentsia club of Lake Forest when Alex Squair—youthful product of Chicago's park courts—defeated the national clay court champion, Clarence J. Griffin of California, for the western title.

The victory was decisive and overwhelming, Squair winning in four sets and allowing Griffin only seven points in

the last set. The complete score was 6-3,

Squair's victory topped off the most pectacular and brilliant series of victoies that any western man has registered nce 1897, in which year Collins signalized his entry into the tennis world by defeat-ing Fischer, Sheldon, Ware, Bond, and Carr Neel on successive days, which gave

Small Gallery Sees Match. Unfortunately, the gallery yesterday was not as large as it should have been to see the regaining of the tennis title by a Chicago man for the first time in eight years. What gallery there was greeted the achievement of Squair with great en-

It is probably true that Griffin in yesterday's match failed to play his best game. That wasn't the Californian's fault. The reason that he failed was due de fact that Squair always had him within his power and never gave him a chance to get started. If Griffin had played the game of his life he could not have beaten the Squair of yesterday. Squair started serving. Almost at once

became evident that the Chicago boy was out to win. Using a reverse service he had Griffin puzzled in the first game and ran out quickly at love. He followed this immediately by breaking through the Californian's service and taking another love game in short order, leading at 2-

the score at 3-all. This was the critical game of the set, for had Squair won his own service the set would have undoubtedly have been his. Thereafter Griffin led and, by breaking through Squair's service on the twelfth game, scored the set at 7-5.

The winning of this set, however, proved costly to Griffin for the reason that Squair had literally run the Californian off his feet and Griffin was visibly tired, while Squair, as usual, was as fresh as when he began.

Previous to this match Miss Browns and Mr. Horrell had defeated Miss Miriam Steever and Mr. Hayes in the semi-final round, a match in which they came very close to defeat. The score of this match was, \$-6, -6, -6, -6.

The first matches in the preliminary pational doubles will be played at Onwentais this afternoon and should result in some brilliant tennis. In the first match-scheduled for 2 p. m.—Irving Wright and J. E. Adous, southern champions, will meet Dean Mathey and George M. Church, western title holders. In the second, scheduled for 3:30 p. m., Karl Behr and Theodore Roseeveit Pell, eastern champions.

This latter event will mark the first appearance of the much talked of Johnston on Michay courts and slaw will be the first time that Behr, recently picked for the American Davis oup team, has been seen in Chicago.

em. 'This is the life,' said " Jack " in his letter.

"This is the life," and "Jack" in his letter,
"Wish you were with me."

A few strong adjectives supplemented his remarks, however, and Hughes was not given the letter at the prison. Instead it was turned ever to the postoffice authorities and Grannan was arrested yesterday on the charge of sending an obscene letter through the mail. He was released on bonds.

LUTTRELL TO PILOT CAR.

The seventeenth entry for the Eigin road races of Aug. 21-22 was received yesterday when Al Schille, a local automobile design manned a Mercer car for both days of the meeting. The machine, which is the third Mercer nominated for the races, will be plioted by Charlés Luttrell, a member of the Chicago Automobile club. Luttrell, who is a veteran of several track and road races, will have as his teammates Spencer Wishart and Eddie Pullen, the Mercer stars, who sent in their entries last week. Members of the contest committee of the Chicago Automobile club were relieved yesterday when a telegram was received from E. C. Patterson in New York stating that Raiph De Palma is on board the steamship Olympic bound for the United States and that he will arrive tomorrow. Mr. Patterson is backing De Palma with the Lautenachlager Grand Prix Mercedes and has entered him in both Eigin races. De Palma, who it was feared would be delayed on the other side of the water by the war, is expected the Chicago the last of the week.

SOX BEAT MACKS IN TROT STAKE IN WILD COMBAT BY 9 TO 8 COUNT

> Score Five Runs in Eighth After Forcing Five on Rivals in Seventh.

BY JAMES CRUSINBERRY. In a rough and tumble sort of ball game the Waite Sox see-sawed their way to a victory over Connie Mack's world's champions at Comiskey park yesterday while the crowd jeered or cheered as the occa-sion demanded. The crowd went home sheering, for the south siders wound up with a tremendous rally in the eighth hat gave them the combat, 9 to 8.

One might doubt that such baseball could exist in a major league if one hadn't been there to see it. The Sox got away front with one run in the seco the Macks took the lead with two in the third. Fear of Losing Export Trade Affects Wheat: Corn Crop Reports Are Bullish.

BIG DROP IN PRODUCTS.

An uneasy feeling dominated the grains markets yesterday. Opening prices did not show any great change in any sharp declines in all grains. Wheat sold gept. 9.55 off sharply with the most pressure on September, which went to a discount of about temper, which went to a work of the becomber. Primary arrivals were 8,345.000 bu, or 629.000 bu more than a year ago. Northwest points received 404 cars, compared to 188 cars a year ago, and Winnipeg had 134 cars, against 103 cars last year. Minneapolis wheat stocks decreased 100,-000 bu for two days.

Traders Ignore Bull Reports.

Continued dry weather over the greater part of the corn belt, with bullish private crop reports, helped create a strong tone in corn early. Later there was a rharp decline, traders doing their best to unload on each other in a narrow market. The decline was the most marked in the September. Towards the close there was a little rally, but net losses for the day were substantial. Cash demand was good early, but the break in September unsettled the cash market, which finished unchanged to coff.

Traders on the short side of the market are in an equally unfortunate position. The general impression is that when the stock exchanges do open it will be after certainty that prices will be anywhere from 5 to 10 points higher than they were when the exchanges were closed. Meanwhile the "short "has no opportunity to buy in the stock he has sold. In the desire that he may be able to cover through purchase of stocks for sale in the long account he continues to visit his broker's office.

Two inconsequential concerns which undertook to operate in La Salle street because they were not members of any exchange have been forced by the banks to forego their advertised intentions. Objections to These Municipal Bonds. Mrs. A. L.-The municipal bonds you are asked to purchase are open to several objections. The fact that bonds are isued by a town having less than 1,000 inhabitants and not on a railroad would suggest caution in any case. In this particular case these conditions are acce ated by the constitution and laws of Okla- Blackstone Hotel Bonds. homa, the state where the town is situ-

The constitution of Oklahoma impe on cities a limit on debts for general purposes, but makes no limit as to the amount of debt for public utilities." The idea of the framers of the constitution evidently was that if a city issues bonds to finance a water or lighting plant the earnings of the plant will pay the interest and iltimately the principal, thus imposing no burden on taxpayers. The Suprem court of Oklahoma, however, has con-strued the words of the constitution as including in "public utilities" anything used by the public. This decision was eached in a suit where the right of a city to issue bonds to build an auditorium was questioned. The court held that the au-

Under this ruling there is practically no limit to the indebtedness that a city can create. Of course, all these bonds would e a legal charge on the taxpayers, but two or three seasons of drouth might seriously diminish the ability of the taxpayers to pay. And if they could not pay naturally they would not.

MATURITIES These bonds are directly secure 1 by a closed first mortgage on all the land, buildings and equipment of the company, a corporation with a capital stock of \$10,000,000.

A few of the strong features of this issue are as follows: (1) The small size of the loan in comparison with the large value of the property mortgaged, appraised at \$1,537,012.77 (2) The large margin of liquid assets, which for two years have ranged from ten to twelve times the total amount of this bond issue. (8) The rapid serial reduction of the loan, the bonds maturing in one to four years, making them an exceptionally attractive short term investment.

(4) The new, modern character of the plant of this company. 5) The solid land value in the security, the land alone be-

(6) The high credit standing and responsibility of the mortgagor corporation, a company with a capital stock of \$10,000,000, rated AAA 1.

(7) The bonds are a lien ahead of \$400,000 debentures and all other obligations of the company. Title and legality approved by Messrs. Mayer, Meyer, Austrian & Platt of Chicago. No investor has ever suffered loss of either principal or interest on any security purchased of us since this house was founded, 32 years ago.

We recommend these bonds. Call, write or 'phone for Circular No. X892.
